

## **All Around the World**

(by P.A. Kelly & T. Freeman)

All around the world children just like you and me  
Standing tall around the world with each other  
All around the world children just like us agree  
If we're free, you and me, we can be like sister and brother

Just imagine how it feels to be somebody else  
Maybe choose another colour for a day  
Wonder why some people try to make you doubt yourself  
Just be strong—you're not wrong  
Live your life in your own way  
So whoever you are  
If you come from near or far  
Don't forget you're a star—  
Keep shining...

All around the world children just like you and me  
Standing tall around the world with each other  
All around the world children just like us agree  
If we're free, you and me, we can be like sister and brother

Just imagine how it feels to wake up everyday  
In some other place, another face and voice  
Wonder why some people try to keep your sort away  
Don't be down—look around  
Realize you have a choice  
So whoever you are  
If you come from near or far  
Don't forget you're a star—  
Keep shining...

All around the world children just like you and me  
Standing tall around the world with each other  
All around the world children just like us agree  
If we're free, you and me, we can be—

Black or white  
Or this or that  
Or left or right  
It doesn't matter  
who you are or where you're from  
We all sing the same song

All around the world children just like you and me  
Standing tall around the world with each other  
All around the world children just like us agree  
If we're free, you and me, we can be like sister and brother
